+90 212 533 70 73

## High Quality

Our products are produced with the highest quality, ethical standards and in accordance with the international standards

## Resistant

Our abrasion and wear resistant products come with different heights, colour options and unique characteristics

## Long Lasting

Artificial turfs are easy to maintain and cheap, as well as have a very long life with small maintenance

**V-Power is a synthetic turf which is built with new generation monofilament yarns and it provides high-quality, maximum-performance for training and professional football pitches. Delays wear and tear due to modern yarn design and features. For many years; ball roll and bouncing values remain in accordance with international standards. It doesn't reduce player's performance, is environmentally friendly and recyclable.**

## Natural Appearance

It is produced with monofilament yarns for aesthetic and more natural appearance

## High UV Resistance

It is produced with special UV resistant additive. Besides being resistant to UV rays, it is also resistant to cold weather

## Nature Friendly

Our products are manufactured with environmental awareness and consist of recyclable materials with the use of effective technology and compo-

Tartan Ground consists of two layers and is water permeable. It is a flexible sports floor with raw materials of EPDM and SBR granules. Used on athletics tracks, basketball courts, tennis courts, children's playgrounds and indoor sports grounds. It can be used without spoiling for a long time with its structure which is not affected by hot and cold weather conditions.
